Volume 2, Issue 1

June 2009

## It Almost Resembles A Street

### *The Week Past*

The Contractor finished replacing sewer and water services on Casco Point Road. They started installing storm sewer and are nearly finished installing class 5 base for the new road.

**We appreciate the patience and cooperation of everyone affected thus far!**

### *The Week Ahead, June 15 Through June 19, 2009*

The Contractor will be finishing installing the class 5 base on Casco Point Road, and possibly pave the first layer of asphalt by Monday of next week. They will continue with sewer and water on Frederick and Carman Streets. There may be periods of a few hours where temporary parking and walking may be required. All driveways will be accessible at the end of each day if possible. The contractor will notify each resident individually prior to crossing their driveway. You will also have excavations up to your property line in order for the services to be replaced.

The contractor may have two crews working in the area during the utility and street installation. We ask that you use caution and have patience when driving through the project and please follow directions from construction workers.

**Phase 2 is projected to begin on Tuesday, June 23, 2009, weather and schedule permitting. This will include Dunwoody Ave., Casco Ave., Caroline and Ethel Ave.** Please refer to the attached notice (Volume 1, Issue 1) for what to expect when Phase 2 begins.

Should you have any questions please contact the project representatives listed under **Contacts**.

### *Landscaping*

As the project moves forward you may want to think

about landscaping within or near the Right of Way if you are within the reconstruct areas. With this project there will be excavations extending to the lot lines of most properties. If there are plants or other landscaping that you want to save you may want to transplant them in another location for the summer. If you have questions about what may be affected feel free to contact a project representative listed under the **Contacts** heading.

### *Traffic*

While Phase One is under construction we ask that you continue to use Dunwoody Avenue to enter and exit the point. Once Phase 2 begins traffic will be routed through Casco Point Road, and Dunwoody Ave. will be closed for construction.

### *Website*

More information can be found on the City of Orono Website ([www.ci.orono.mn.us](http://www.ci.orono.mn.us)) under the Casco Point Street & Utility Reconstruction link. This will be updated weekly or more often if necessary.

### *Information Line: 651-967-4512*

Daily updates will be left at this number, including location and type of work scheduled, road closures and potential utility service interruptions.

### *Contacts*

Please contact the project representatives below with any additional questions, concerns or issues you may have during construction.

Jared Ward – 651-239-9428

Darren Amundsen 651-604-4894
